### BIO:

Pirie Brown knows that the magic of real business success lies in the soul of the company. He specialises in outlining how all companies can identify and promote their values to ensure that staff and customers alike simply love doing business together.

Pirie likes to ‘tell it like it is’ – all of it. He’s well known for a non-pc attitude that gets to the heart of what’s do-able in business and in life – what it costs and what the rewards can be. He’s raised a company from the ashes of liquidation to become a hugely successful manufacturing plant in the construction industry by thinking outside the square about things, and putting his internal and external customers first! He’s a man of his word, who believes ‘we complicate and intellectualise some of the most basic stuff’
